

Operation Waste House Project

Introduction

This initiative was carried by our enforcement team based in Dublin City Council. This was the first time that a project of this nature was carried out in Ireland at Local Authority level.

Our team research potential illegal operators advertising waste collections services through various mediums and carry out the appropriate surveillance and investigations.

Throughout the project, the team follow our standard operating procedures prepared specifically for this project.

If the alleged offenders are confirmed as illegal waste collector, our team will take the appropriate enforcement action.

Project Outcome

This project promotes awareness of the requirement to hold a valid Waste Collection Permit for operators collecting waste. In addition, encourages compliance and allows us, on behalf of our client, to identify illegal waste collectors.

Service Delivery

Our team works closely with other departments within the Local Authority, the National Waste Collection Permit Office and An Garda Síochána to ensure this project delivers effective enforcement and acts as a deterrent to potential illegal collectors.

Project Summary

Start Date: 2015

Completion Date: Ongoing

Client: Dublin City Council
