

HEALTH & SAFETY MANAGEMENT

What is ISO 18001?

OHSAS 18001 provides a framework for occupational health and safety management best practice to aid organisations to identify, minimise and control health & safety risks in the workplace, conform to Health & Safety legislation and protect the well-being of staff while at work.

Benefits of ISO 18001 Certification

- Ensures health and well-being of employees, sub-contractors and the public
- Minimisation of liability of employers through adoption of proactive rather than reactive controls
- Ensures legislative awareness and compliance
- Adoption of international best practice in relation to risk management
- Reduces accident and incident rates by removing workplace hazards and mitigating risks
- Improves the incident investigation process
- Increases employee motivation through the provision of a safer workplace and participation process
- Improved corporate image & credibility

Why choose Certification Europe?

Certification Europe is a leading global certification body with expertise that is renowned worldwide. Rather than an uninvolved tick-box approach, Certification Europe takes pride in offering a unique partnership to support the continuous improvement of your management systems.
